

J. A. TAWNEY

IS DEFEATED

Sydney Anderson Wins Out in Primary Election.

STEVENS WINS FROM HALBERT

Congressman From the Fourth Minnesota District Again Is Nominated. Frank M. Nye the Choice of Minneapolis Republicans for Congress—C. A. Lindbergh Has a Landslide in the Sixth District.

St. Paul, Sept. 21.—Insurgency was rampant in Minnesota. It defeated James A. Tawney in the First congressional district and gave two other congressmen a bad scare. F. C. Stevens, in the Fourth district, is renominated by something over 1,000 votes over his opponent, Hugh T. Halbert, and F. M. Nye, in the Minneapolis district, is renominated by less than 1,000 votes. C. A. Lindbergh, the insurgent member in the Sixth district, won over P. H. McGarry by a landslide. C. B. Miller, Halvor Steenerson and W. S. Hammond, the other three members that had contests, won easily.

Sidney A. Anderson of Lanesboro, Tawney's opponent, claims the nomination by 2,000, and Tawney, while not conceding defeat, admits that the outlook is bad. At the Tawney headquarters, 112 precincts heard from out of 271 gave Anderson a lead of 770 votes. At this rate through the district Anderson would have 1,600 majority.

Sidney Anderson said that he would carry the district by 2,000 majority. He said that reports which had reached his headquarters were to the effect that he had carried Fillmore county by 800, Olmsted county by 500 and Dodge county 2 to 1. It also was reported that Freeborn would give him 700 to 800 majority. Anderson said that a report from Winona from Tawney's managers conceded a landslide for Anderson.

The following dispatch was received from Winona:

Headquarters in Gloom.

"The Tawney headquarters are in gloom. They admit the vote indicates a desperate battle. Early returns placed Anderson in the lead and he has maintained it throughout, and there apparently is little hope of overcoming it. They are not claiming the county of Winona by more than 600 or 700, while two years ago it went 1,250. The closeness of the battle with several of the Tawney strongholds to be heard from prohibits estimates with any degree of accuracy."

Sixty-nine of the 271 precincts give Tawney 3,235 and Anderson 3,828. The lead steadily increases.

The nominees for congress follow: First District—Republican, Sidney Anderson, Lanesboro; Democratic, H. L. Buck, Winona.

Second District—Republican, A. L. Ward, Fairmont or F. Ellsworth, St. James; Democratic, W. S. Hammond, St. James; Public Ownership, D. A. Thayer.

Third District—Republican, C. R. Davis, St. Peter.

Fourth District—Republican, F. C. Stevens, St. Paul; Democratic, J. L. Gieske, St. Paul; Public Ownership, C. L. Stratton, St. Paul.

Fifth District—Republican, F. M. Nye, Minneapolis; Democratic, T. P. Dyer, Minneapolis.

Sixth District—Republican, C. A. Lindbergh, Little Falls.

Seventh District—Republican, A. J. Volstead, Granite Falls.

Eighth District—Republican, C. B. Miller, Duluth; Democratic, Alfred Jacques, Duluth; Public Ownership, Dr. O. S. Watkins, Duluth.

Ninth District—Republican, Halvor Steenerson; Public Ownership, David Sanders.

State School Flourishing.

Ellendale, N. D., Sept. 21.—The first day's enrollment at the state normal industrial school at this place shows a decided increase. President W. M. Kern is confident that the attendance in 1910-1911 will exceed that of any previous year. Improvements have been made to the equipment until the school has the most thoroughly equipped manual training department in the state. The faculty has been increased to eighteen instructors with assistants in nearly every department. It is expected that the enrollment will exceed 350.

Used Dynamite at Charivari.

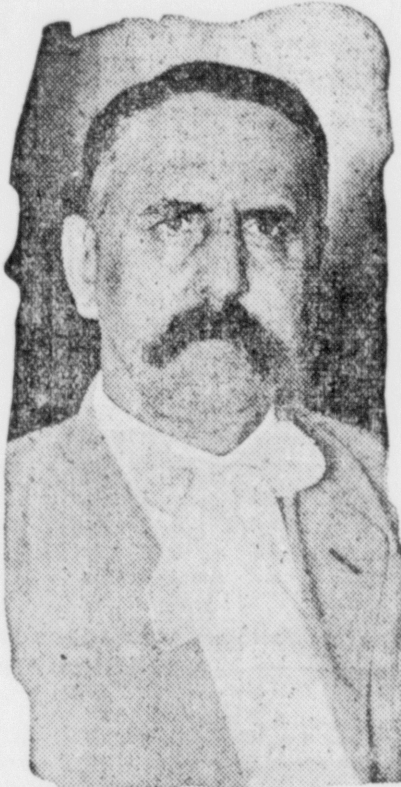

De Pere, Wis., Sept. 21.—One hundred freshmen and sophomores of Lawrence college fought for three hours on the college campus, the efforts of President Plantz and members of the faculty to stop the fuss being ineffectual.

ACCUSERS ALSO ARE IN JAIL

Witnesses for State Arrested at Yankton on Forgery Charge.

Yankton, S. D., Sept. 21.—J. V. Smith and Albert Dugan, who had Charles Hoffman arrested for slugging Smith in a box car and robbing him of \$35, are now themselves in jail charged with forgery. All three are from Omaha and are believed to be crooks. Smith tried to pass a forged check for \$96, it is charged, using the state's attorney to identify him. The scheme was nipped after the officer had advanced \$20 to the men, who were witnesses against Hoffman and had therefore gained the friendship of the attorney.

THOUSANDS GREET THE PAPAL LEGATE

St. Paul People Turn Out to Welcome Vannutelli.

St. Paul, Sept. 21.—The largest crowd ever packed into the St. Paul Auditorium, filling every foot of floor space and cramming the aisles to the remotest edge of the upper galleries, greeted his eminence, Cardinal Vincenzo Vannutelli, papal legate, when he stepped onto the stage to deliver his address as representative of the pope. Fully 20,000 persons listened to the words delivered in French and in a voice somewhat weakened by age, and sat in the hushed silence of reverence to the words of the cardinal who selected St. Paul as the first city of the United States to be visited.

Draped in the American colors directly above the small platform erected for the dignitaries, and decorated behind in the yellow and white of the pope, with a mammoth cross in the same colors, with the vast throng intensely watching and waiting, hushed by his presence, the magnificence of the honor filled the distinguished visitor with a joy that he hastened to tell to those about him and to nod to the audience.

When he arose to address the multitude, the smile that so often breaks forth, was gone. The tenseness of the situation seemed to hold him. Towering inches above the tallest, and straight as an arrow, the latent strength within him that has helped him to bear his seventy-four years, became uppermost and in a voice, somewhat husky, though displaying its former power, he delivered his address in the French tongue. Maybray or Keller was first introduced and delivered the address of welcome on behalf of the city. Following him, C. D. O'Brien, on the part of the laity of the church, welcomed the dignity to the city.

Archbishop Ireland, tracing the history of papacy and the part the church has played through the dark ages in bringing out civilization, brought forth storms of applause.

The address of the cardinal received unstinted applause, and his entrance and conclusion were signals for wild cheering. In order that the crowds might understand the message delivered by the legate, Archbishop Ireland followed with a translation of the address.

Thieves at Work.

Hastings, Minn., Sept. 21.—Holdup men, sneak thieves and pickpockets are at work here. Henry Dengel, an old veteran, was robbed of \$6.50 while asleep upon a bench in Meloy park. Harvey Doten is minus a valuable silver watch, which was taken from his vest pocket at the station.

New World's Record.

Columbus, O., Sept. 21.—Joan, four-year-old, owned by David Shaw of Cleveland and driven by M. McDevitt, became a world's champion trotter for fillies of her age when she defeated Dudie Archdale in a grueling race for the Hoster-Columbus stakes, the last \$10,000 prize that the grand circuit has to offer this year. Both heats were done in 2:06 1/4, time never before made by a trotter of Joan's class.

BRYAN DECLINES TO SUPPORT HIM

Will Not Further the Candidacy of Dahlman.

ATTITUDE ON LIQUOR QUESTION

Reason Why Noted Nebraskan Will Not Speak in Favor of the Democratic Candidate for Governor of Nebraska—Mayor of Omaha Hurls Defiance at the Former Democratic Presidential Candidate.

Lincoln, Neb., Sept. 21.—In a statement in which he declared that the crusade which he feels impelled to wage against the liquor interests of the state and nation overshadows a personal and political friendship of twenty years, William J. Bryan announced he had bolted the head of the Democratic state ticket in Nebraska and would not support James C. Dahlman for governor.

Mr. Bryan says he regrets that he is compelled to take the stand he does—his first departure from political regularity—but says he feels it his duty to do so because of the position taken by the Democratic nominee on the liquor question. The statement does not indicate that Mr. Bryan will support the candidate of any other party, but announces that he is a pronounced advocate of county option and the early saloon closing law, both of which he insists are menaced by Mr. Dahlman's candidacy.

"I am just leaving for Missouri," the statement says, "and shall be absent practically all of the time for about a month campaigning in Missouri, Kansas, Iowa, Indiana and Illinois. After that I shall be at liberty to speak for Mr. Hitchcock, the Democratic candidate for congress, and for the state ticket in Nebraska. In speaking for the state ticket, however, I shall not be able to present any arguments in favor of the election of Mr. Dahlman."

Liquor Question Sole Issue.

"In spite of the fact that the last Democratic state convention voted down a declaration against county option by a vote of 638 to 202, he (Mr. Dahlman) says that he will veto a county option bill if passed, and in spite of the fact that the state convention endorsed the 8 o'clock closing law by a vote of 710 to 163, he announces that he will sign a bill repealing it if such a bill is passed. He is making his appeal on non-partisan lines with the liquor question as a sole issue."

"Possibly it is just as well to have the issue clearly presented so that it may be settled this year instead of two years hence. Troublesome as the question is now, it would be even more embarrassing if presented in 1912, when we have a presidential election on hand."

"The voters now have an opportunity to decide whether the state shall go backward or forward on the liquor question. To present arguments in favor of going backward would not only contradict what I have already said on the subject, but would embarrass me in the fight that I expect to make hereafter to save our party from the odium of being the representative of liquor interests."

Dahlman Defies Bryan.

Omaha, Sept. 21.—Mayor James C. Dahlman, Democratic candidate for governor, hurled defiance at William J. Bryan, who gave out a statement that he would not support the mayor in his gubernatorial campaign. In many respects the mayor's statement is more forcible than eloquent.

Maybray's Friends Go to Jail.

Council Bluffs, Ia., Sept. 21.—Judge Smith McPherson, in the United States district court here, sentenced Barney Martin and William B. Godefrey, two members of the Maybray swindle organization, to nine and one-half months each in the county jail. Martin is quite an old man. He was convicted of swindling Samuel Sutor of Cass Lake, Minn. Godefrey is a real estate man of Seattle. He was convicted of being mixed up in four Maybray swindles.

Mayor Haynes Victorious.

Minneapolis, Sept. 21.—Mayor James C. Haynes won out in Minneapolis over his opponent for the Democratic nomination, George B. Esterman, by 3,996. He will be opposed at the coming election by W. E. Satterlee, who outran C. J. Minor for the Republican nomination by 7,625 votes. The efficiency of the voting machines was again demonstrated. The complete city returns were in an hour after the closing of the polls.

Five Arrested in Raid.

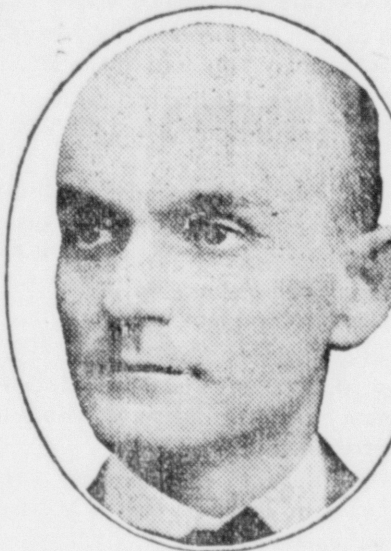

Upham, N. D., Sept. 21.—In a raid growing out of a general fight in a blind pig here five arrests were made by the sheriff and his deputies of McHenry county. Ben Cranton, Pat Mayse, William Carr, Frank Grimes and James Whalen are under arrest, charges of conducting disorderly places and of conducting gambling resorts being lodged against them.

Pig Has Only Two Legs.

Malden Rock, Wis., Sept. 21.—William Evans of Plum City is the owner of a two-legged pig. The animal can walk on two legs as well as other pigs that possess the usual four.

GRAND FORKS IS AFTER IT

Would Entertain the 1911 Session of Methodist Conference.

Grand Forks, N. D., Sept. 21.—When the North Dakota Methodist conference is held at Bismarck, Oct. 4 to 7, the Grand Forks delegates will extend an invitation to the conference to hold its 1911 session in Grand Forks. On that occasion the twenty-fifth anniversary of the establishment of the laymen's conference in North Dakota will be celebrated and, inasmuch as the organization was launched in Grand Forks, it is deemed only fitting that the silver anniversary should be observed here.

ORGANIZED GANG OF ROBBERS AT WORK

Yeggmen Blow Up Two Safes in Canada.

Hamioti, Man., Sept. 21.—The gang of professional burglars which has been operating in Southern Manitoba for several weeks turned their attention to this town and robbed two stores and blew two large safes with nitroglycerin and secured \$5,000 in cash. The robberies were not discovered until the stores were opened in the morning.

The places robbed were the Manitoba Hardware company and R. E. Hunter's jewelry store. In addition to the money the thieves appropriated revolvers and shells. Five suspicious characters were arrested by the police, but none of the stolen property was discovered on them. The provincial police department at Winnipeg has been notified, but the thieves appear to have left no clue.

It is believed the gang which operated here is the same which has broken into a number of stores along the Manitoba boundary during the past few weeks, being attracted by the fact that there is a considerable quantity of money in the small towns at present owing to the movement of wheat. An incredible number of robberies have been committed along the border, but so far none of the thieves has been caught.

Homesteader Killed.

Sioux Falls, S. D., Sept. 21.—William Seiker, one of the best known homesteaders of Gregory county, while on his way home from the town of Herk with a load of lumber, received injuries which caused his death. It is supposed the wheels of the wagon struck a rut, throwing Seiker from the load. He struck head first on the wagon tongue and fell to the ground, and the heavy load was hauled over his body. A huge gash was cut in his right leg and an artery severed.

Churches to Consolidate.

Brockton, Mass., Sept. 21.—An important consolidation of the three principal Swedish churches of America was practically assured at the twentieth annual conference of the Eastern Swedish Missionary association. A vote was taken and showed that a majority of the Swedish churches in America was in favor of uniting the Swedish Congregationalists, the Swedish Evangelical Mission Covenant of America and the Swedish Free Church of America.

Head of the Odd Fellows.

Atlanta, Ga., Sept. 21.—Deputy Grand Sire Cockrum succeeds W. L. Kuykendall, now past grand sire of the I. O. O. F. The installation of the officers-elect is scheduled to take place at the final session, probably Friday night or Saturday morning. Immediately after Grand Sire-elect Cockrum will appoint a grand chaplain, grand guardian, grand messenger and grand marshal.

The Septuagint.

Septuagint means seventy. The septuagint version of the Old Testament originated, according to Aristotle, as follows: Ptolemy Philadelphus (284-247 B. C.) when engaged in making a collection of the laws or all nations for the great Alexandrine library was advised by his librarian to have the Jewish Scripture translated into Greek, and the king had the work done by seventy or seventy-two learned Jews from Jerusalem. The letter of Aristotle is probably mythical, but the substance of the story it tells is probably quite true.—New York American.

WELCOMES CIVIL WAR VETERANS

WINTER WHEAT AND ALFALFA

Can Be Grown West of the Missouri River.

Dickinson, N. D., Sept. 21.—L. R. Waldron, superintendent of the Dickinson experimental station of the North Dakota agricultural college, has given out an interesting statement of the results of the year. The importance of the proper handling of the soil as shown in the good yields obtained this year, despite the fact that there was less than half the normal rainfall, is one matter that has been put to the front.

"There has always been a strong suspicion that the territory lying west and south of the Missouri river is unfitted for agriculture and is adapted only for ranging. This view has been shared by many of those living in the district as well as outside," says Professor Waldron, in discussing the season's operations.

"The farming results in Stark county are of peculiar interest and value for the season of 1910. We have had an almost perfectly normal year and the results ought to indicate more or less fairly what may be expected for a period of years. These results apply not only to this county, but for a goodly portion of the state. The results gained in Stark county can be achieved in other portions with the same rainfall and similar evaporation and other conditions.

"A study of the yields of grain sent to the dry farming congress, which meets at Spokane next month, will be of interest. Three wheat, one barley and one alfalfa are included. Kubanka, one of the best-known varieties of durum wheat, was grown on spring plowed wheat stubble, packed on with a subsurface packet. The packing increased the yield slightly. The five plots of that variety yielded 28.8 bushels, one going as high as 31 bushels. The girka, a Russian wheat, went 28 bushels an acre, grown on corn stubble. This is a very good wheat for dry years. The turkey red, a winter wheat, went 23 bushels an acre, although having a bad winter.

"Swan-neck barley went 40 bushels an acre on corn land, while alfalfa also showed up well, being in seed pod but not yielding this year. Alfalfa promises to be a good crop for seed production in western North Dakota."

Governor Fort of New Jersey Talks to Grand Army Men.

MAY ENTER INTO CONTEST

Matter of Next Place of Meeting Likely to Be Determined by the Question of Railroad Rates—McElroy of Washington and Gilman of Boston Candidates for Commander-in-Chief.

Atlantic City, N. J., Sept. 21.—This was another happy day for the thousands of veterans of the Grand Army of the Republic, now in its forty-fourth annual encampment here. The big crowd that came to the shore on Sunday and Monday was swelled greatly by arriving delegations on early trains and indicated that the encampment will be one of the best the Civil war veterans have held in several years. The visiting veterans were formally welcomed to the city at a meeting on the Million Dollar pier.

Governor Fort welcomed the veterans on behalf of the state and Mayor Stoy gave them the freedom of the city. Commander-in-Chief Van Sant of Minnesota made the principal response and was followed by the presidents of the other national organizations meeting with the G. A. R. here.

Vice President James S. Sherman will review the veterans' big parade with Commander-in-Chief Van Sant. Another guest of the G. A. R. on the reviewing stand will be Lieutenant General Nelson A. Miles, U. S. A., retired.

The campaign for the next commander-in-chief continues. Each of the two candidates in the field, Commander John E. Gilman of Boston and John McElroy of Washington, D. C., have many friends who are electioneering for their favorite.

In the matter of the next place of meeting the question of railroad rates may largely enter into the contest.

Protest Against Railroads.

There is almost a unanimous protest against the railroads in general for their alleged failure to give the veterans a satisfactory rate from distant points. It was said at national headquarters that if Rochester, N. Y., can guarantee better rates than given to Atlantic City the New York state town may capture the next encampment.

Practically all the allied organizations of the G. A. R. held meetings, some of them electing officers. One thing noticed at these meetings was the definite shape the movement for increasing the pensions of veterans is taking. The cry is a dollar a day for life. At present congress grants pensions to Civil war veterans as low as \$12 a month.

The Naval Veterans elected these officers:

Commodore, William G. McEwan; Philadelphia; fleet commander, S. C. Van Tassel, Yonkers, N. Y.; fleet lieutenant, John H. Norman, New Haven, Conn.; judge advocate, Fred E. Haskins, Brooklyn; fleet historian, Cyrus Sears, Baltimore; fleet boatswain, William Jones, New Haven, Conn.

The national encampment of the Sons of Veterans met in the afternoon. It is expected Fred Bolton of Boston will be elected commander. There is a spirited contest on for secretary between John E. Dilly of Illinois and Horace H. Hammer of Reading, Pa., the incumbent. There is also a fight for national president of the National Woman's Relief corps. The candidates are Miss Belle C. Harris, Emporia, Kan.; Lois M. Knauff, Cleveland; Ida S. McBride, Indianapolis and Cora M. Davis, Union, Ore. Henry White of Indiana, Pa., was re-elected president of the National Association of Union Prisoners of War.

FOR POSTAL SAVINGS BANKS

Board of Control to Hold Final Conference.

Washington, Sept. 21.—Attorney General Wickersham, Secretary MacVough and Postmaster General Hitchcock, who constitute the board of control for the postal savings banks, will have a preliminary conference before the cabinet meeting next week.

It is understood the board is ready to recommend the establishment of one bank in each of the states and territories where it has been decided to make the experiment. It is the plan to issue certificates of deposit in one form up to \$9 and in other forms for \$10, \$20 and \$50. They will be nontransferable and nonnegotiable.

Iowa Farmer Killed.

Oskaloosa, Ia., Sept. 21.—Charles Barrett, aged thirty-eight, a well-known farmer, was shot and killed by an unknown assassin while he was in the rear of the residence of his divorced wife in this city. The police have no positive evidence, but are holding Mrs. Barrett and her son Sam, being convinced that they know more about the shooting than they have told. Grant Brown, a brother of Mrs. Barrett, also is being held on suspicion.

WEDNESDAY, SEPT. 21, 1910

The defeated candidates can now
tell their constituency how it happened.

Now that the primary election is
over and the candidates of the parties
are squarely in the field the real
work of the campaign will begin.

Wisconsin is now talking about the
pass evil at the state fair. Minnesota
has set the pace on the pass business
and the state fair receipts this year
seem to show it.

The Cass Lake Times says: "The
Northern Minnesota Editorial association
will take their pens in hand and
write all about freight rates etc.,
three days this month, in Duluth.
Their write up will be read at Brainerd
in December. Good thing!"

The familiar faces appearing in
the country press for the past two
months have disappeared from their
accustomed places and boiler plate
in many instances fills the aching
void. Many a good man has gone
down to defeat in the primary election
just held but the great majority
of them are good losers and today
are telling their fellows of the good
qualities of the man who beat them
to it.

Deitz and his sons have again
displayed their nerve by appearing in
Winter and spending the day buying
ammunition and supplies, getting
their mail and attending to such
other business affairs as interested
them. In the meantime the citizens
of that place fairly shook in their
shoes from fright until they were
well on their way home. The sheriff
has made no attempt to arrest the
man for whom he holds a warrant
and to outsiders, at least, it looks as
though the Deitz family had that
whole part of Wisconsin terrorized.

HIGH SCHOOL NOTES

The second week of school is ended
and now we fully realize that work
is our first duty.

The assembly room is well filled
and in every other seat the beaming
face of some little freshman is visible,
and now they seem to be better acquainted
with their new surroundings, some quickly,
other more slowly.

This year the freshmen will study
the Thomas & Howe English book,
instead of the Herrick & Damon; the
Juniors will use an American literature
as the basis of their English work.

The seniors commenced experimenting
in the laboratory this week,
but no accidents have occurred.

The football team has been allowed
to practice on the school grounds
and about twenty candidates appear
every evening. The team is unusually
light but will endeavor to make up
for this deficiency in speed.

Alderman, Mahlum, Trent, Purdy
and Brady are the old members, and
the boys are being coached by A. T.
Larson and Walter Wieland. If we
only had a gymnasium then the girls
could get some athletic practice also.

The members of the chorus miss
Mrs. Dial very much and we hope
that someone will soon be secured to
fill her place. In the high school
this year there is plenty of material
for glee clubs as well as for a good
chorus. In many of the leading high
schools, music is as much a part of
the course of study as science or
mathematics, and as much time is
devoted to it. We hope that the
time is not far off, when the ways
and means may be found for making
music a study of as much importance,
as any other, in our course.

Teacher—"Have you any conflicts?"
Freshie, stammering—"No-o-o! I
don't take that this year."

High school lament, "I love the
grass, but oh! you high board fence."
This week William Barker and
Richard Johnson returned to school
after their trip through the great
lakes. Miss Nettie Fogleberg, of
Montevideo, enrolled also.

Prof. McCarthy's puzzle—Why?
In classes he's so brilliant
And blushes at their praise;
He never sassed the teacher,
In all his high school days.

To skip a class, or even a day,
Would be an awful crime,
But still on all his absent notes
We read this little rhyme:

So sorry he's been absent, but he was
sick again.

Three Curious Bells.

There is a curious legend connected
with the bells of Messingham church.
It is said that a long, long time ago
a traveler was passing through Messingham
when he noticed three men sitting
on a stile in the churchyard and saying,
"Come to church, Thompson; come to
church, Brown," and so on. Being
very much surprised, he asked what it
meant and was told that, having no
bells, they called folks to church in
this way. The traveler remarked that
it was a pity so fine a church should
be without bells and at the same time
asked the men if they could make
three for the church, promising to pay
for them himself. They undertook to
do this. They were respectively a
tinker, a carpenter and a shoemaker.
When next the traveler passed that
way he found the three men ringing
three bells which said, "Ting, tong,
pluff," being made respectively of tin,
wood and leather!—London Tit-Bits

Hair Monstrosities.

French theater managers in the
eighteenth century had worse evils
than picture hats to contend against.
Marie Antoinette, who was short, even
according to French standards, set the
fashion of high coiffures and ultra-
fashionable women prided themselves
on measuring four feet from their
chins to the tops of their heads. These
structures took about six hours to
erect, the hairdresser mounting a ladder
in the process. Some coiffures were
almost as broad as they were long,
with wings sticking out about
eight inches on each side of the head.
For the "frigate" coiffure the hair was
rippled in a huge pile to represent
the waves of an angry sea and sur-
mounted by a fully rigged ship. As a
consequence of these monstrosities,
disturbances in theaters occurred al-
most daily until an ordinance was is-
sued against the admission of women
with high coiffures to the floor of the
house.

Cash Your Rent Receipts

We Lend You the Money at
Simple Interest

Money invested in house rent receipts is a poor investment and one
that you will never derive any future benefits from. Anybody can pay
rent but it takes energy, economy and thrift to own a home. We will
lend you the money to buy; build, improve homes or lift mortgages any-
where in the Union. For each \$1000 borrowed you pay us \$7.50 per
month together with 5 per cent interest on yearly balances; giving you
104 years in which to repay loan, with the privilege of taking up all
notes or as many as you wish at any time, and by so doing you would
get a discount of the 5 per cent interest on all notes taken up before
maturity. We allow six months' grace in case of adverse circumstances.
Now, why do you pay rent when our plan will enable you to own a home
with the money you spend for rent? On receipt of this coupon, properly
filled out, we will mail you full particulars in regard to our method of
loaning money, or, better still, come to our office and let us explain to you our liberal proposition in detail.

CONG. LINDBERGH IS RENOMINATED

indications Point to the Success of Ole Erickson in His Fight for State Senator

DAY TAKE OFFICIAL COUNT

to Settle Senatorial Matter and Also that of County Superintendent of Schools

The primary election of Tuesday as a landslide and many surprises were sprung upon the public. In the congressional fights throughout the state the unofficial returns show the renomination of Congressman Lindbergh in the Sixth district, Congressman Nye in the Fifth, Congressman Stevens in the Fourth, Congressman Stearnson in the Ninth and Congressman Miller in the Eighth. The returns from the First district indicate the defeat of Congressman Hawkey by a majority of over 1,500. On the face of the returns at hand the senatorial fight between Senator S. F. Alderman and O. P. Erickson, the odds seem to be against Mr. Alderman's renomination. The legislative ticket will probably be C. W. Bouck and L. D. Brown, although the complete returns may change the result. On the county ticket the returns so far received would indicate that T. Dean had won out, while the vote of the entire county will be necessary to decide who has received the nomination as between Prof. Ialm and J. A. Wilson for county superintendent of schools. For county commissioner in the fourth commissioner's district, H. Oppenberg was renominated over N. I. Paine by a majority of 27. C. D. Johnson, democratic candidate for senator, and John Schmolke and Geo. F. Moeglin, candidates for representative were nominated without opposition. The vote of the county so far as received is published today and will be printed in full tomorrow with the complete vote.

The Figures to Date The totals of the election returns in senator and representatives up to the time of going to press in Crow Wing county are as follows:

TAWNEY DEFEATED IN FIRST DISTRICT

Special to The Dispatch:— St. Paul, Minn., Sept. 21, 1910— James A. Tawney, of the First district, is defeated for renomination to congress by Sidney Anderson by nearly two thousand plurality. All other present incumbents are renominated, Stevens winning in the Fourth by fifteen hundred, and Nye in the Fifth by one thousand. Ward apparently secures the nomination in the Second District.

FOREST FIRE AT HOMEBROOK

Woods are Blazing at Settlement About 30 Miles Distant From Town of Pequot

Advices received from the north are to the effect that the woods are on fire at Homebrook, a small settlement about 30 miles distant from Pequot. All efforts to stem the raging tide of flames have been unsuccessful. Much valuable timber will be destroyed. As rain has not fallen for some time the woods and surrounding country are very dry.

LIKE MINNESOTA PLAN

North Dakota Game and Fish Commission Working in Interest of its Hunters

Crookston, Minn., Sept. 20.—Yesterday Thomas Griffiths, a member of the North Dakota Game and Fish commission, spent the day in Minnesota, in the vicinity of Bena, where he purchased 300 pounds of wild rice seed from the Indians, which the game and fish commission will plant in the lakes of North Dakota to afford protection and feed for the ducks and geese, but especially the ducks. If the experiment proves successful the commission will make more extensive purchases next year, and seed all the lakes which are properly located in order to improve them for hunting and attract geese and ducks not only to breed but in their flights south as cold weather approaches. The finest duck hunting to be found in Minnesota is in the rice beds, and the North Dakotans believe their lakes can be improved upon by growing the rice.

The North Dakota commission has also decided to follow the Minnesota sportsmen in introducing ring-necked pheasants, and Saturday Mr. Griffiths purchased sixty of these, bred at Gafton, N. D., by Mr. Williams, a taxidermist, and they will be turned loose in the Turtle mountains where it is believed the conditions are ideal for their propagation. The experiments of the Polk County Game and Fish Protective association in introducing the ring-necked pheasants has been watched closely by the North Dakotans. They have been very successful. Near Fertile, Mentor, Euclid and along the Red Lake river, where several hundred have been turned loose during the past two years, there are quite a number of them seen this year, and as they cannot be killed before 1915, it is believed they will be thoroughly established by that time.

WILL PRESENT PLAY SEPT. 29

Play "Bobbie Blake" Will be Given for Benefit of St. Paul's Episcopal Church

DIRECTION OF W. I. HARVEY

Miss Irma Parker Assuming the Title Roll of Comedy "Bobbie Blake"

The ladies and young gentlemen to the number of 175 will present a musical comedy entitled, "Bobbie Blake," for the benefit of St. Paul's Episcopal church on Friday evening, Sept. 29th, at the Brainerd opera house, appearing under the direction of Mr. and Mrs. W. I. Harvey. The title roll, "Bobbie Blake," will be assumed by Miss Irma Parker. Last night over 50 young people appeared at the second rehearsal at the parlors of the church among whom were the Misses Irma Parker, Ethel Parker, Ethel Hill, Bonnie McLagan, Mae Belle Grewcox, Ruth Barber, Marion Barber, Eliza Armstrong, the Misses Pippy, Smith, Carlson and others. Among the gentlemen assembled were Messrs. Mraz, Swanson, Low, Coutu, Truss, Wieland and others.

The chorus will be rapidly augmented until it numbers 150. The cast will number 15. Mr. and Mrs. Harvey are from Philadelphia and are most successful promoters of plays. Mrs. Harvey showed exceptional skill last night in training and handling the chorus and the sextette. The comedy will some bright, witty lines, pretty costumes, catchy songs in the chorus and some charming dances which will all contribute to make it a success.

Mr. Harvey has many flattering press notices received in various cities in which he presented this play. The "Red Wing Times" says: "Bobby Blake" the musical extravaganza presented at the auditorium by local talent scored a big success. It was not the play itself, but the catchy music and specialties which won so much favor, and it was apparent from the incessant and rapturous applause that the audience appreciated the efforts of the local singers."

"Bobbie Blake" is a comedy skit in which the plot is a mere thread on which to string a variety of musical gems. As presented the plot was scarcely apparent at all, while the musical features and specialties were the best ever, and at times fairly thrilled the audience.

"The performance opened with a rousing chorus of some eighty or more voices, led by Wendler's full orchestra, in a melodious and gripping selection that swayed the house, and by the time the cheering had died away this was followed by one of the prettiest Spanish dances ever seen on any stage, performed by W. I. Harvey, the instructor, and Miss Agnes Berg. By many this feature was considered the gem of the evening. A sextette provided a diversity from the general run of the program in the way of a song and dance which showed training and much adaptability."

MUSIC AND DRAMA

"The Blue Mouse" Tonight

It is seldom a farce creates the attention that fell to the lot of the Messrs. Shubert when they produced Clyde Fitch's greatest farce "The Blue Mouse." It is an adaption from the German and is by the same author who wrote "Girls." Unlike the average farce that has gone before, an unusually large cast is required to present the piece and when it is seen here the players will include Grace Merritt, Wilton Taylor, Inda Palmer, Guy D'Ennery, Gordon Mendelsohn, John Hynes and twenty others. The story of the farce centers around the doings of "The Blue Mouse" a variety performer, who consents to impersonate the real wife of Rollett, secretary to the president of a trolley line. The president is exceedingly fond of innocent flirtations and Rollett gets the Salome dancer to make love to him with the hopes that she may obtain for him a promotion. The trick is turned. Naturally many amusing and unlooked for complications arise, which require three acts to untangle. "The Blue Mouse" will be seen at the Brainerd opera house tonight. There has been a large sale of seats.

Amended It.

When King George was Prince of Wales one of his body servants was once trying to explain to Sir Arthur Bigge some incident that had taken place.

"Me and the prince"—he began, when Sir Arthur pulled him up.

"You should say 'the prince and I,'" he observed. The man looked at him for a moment and then said:

"I beg pardon, sir, but I did not know you were there at all. However, you and me and the prince."

Sir Arthur was compelled to laugh at this, and after another attempt to explain to the man how the story should be told, was content to let him tell it in his own fashion.—Pearson's Weekly.

STOMACH DISTRESS IS ENDED FOREVER

All Dyspepsia, Heartburn, Indigestion and Other Misery Vanishes

RELIEVES IN FIVE MINUTES

End all Stomach Trouble Now so You Can Eat Your Favorite Foods Without Fear

Take your sour, out-of-order stomach—or maybe you call it indigestion, dyspepsia, gastritis of catarrh of stomach; it doesn't matter—take your stomach trouble right with you to your pharmacist and ask him to open a 50-cent case of Pape's Diapiesin and let you eat one 22-grain triangle and see if within five minutes there is left any trace of your former misery.

The correct name for your trouble is food fermentation—food souring; the digestive organs become weak; there is lack of gastric juice; your food is only half digested, and you become affected with loss of appetite, pressure and fullness after eating, vomiting, nausea, heartburn, griping in bowels, tenderness in the pit of stomach, bad taste in mouth, constipation, pain in limbs, sleeplessness, belching of gas, biliousness, sick headache, nervousness, dizziness or many other similar symptoms.

If your appetite is fickle and nothing tempts you, or you belch gas, or if you feel bloated after eating, or your food lies like a lump of lead on your stomach, you can make up your mind that at the bottom of all this there is but one cause—fermentation of undigested food.

Prove to yourself in five minutes that your stomach is as good as any; that there is nothing really wrong. Stop this fermentation and begin eating what you want without fear of discomfort or misery.

Almost instant relief is waiting for you. It is merely a matter of how soon you take a little Diapiesin.

WHY IT SUCCEEDS

Because it's for One Thing Only, and Brainerd People Appreciate This

Nothing can be good for everything. Doing one thing well brings success.

Doan's Kidney Pills do one thing only. They cure sick kidneys.

They cure backache, every kidney ill. There is Brainerd evidence to prove it.

Charles Ellison, 512 S. Quince St., Brainerd, Minn., says: "My kidneys were disordered for years and seemed to be gradually growing worse. About a year ago I was seized with a severe pain in the small of my back and was forced to stop work. The medicine I took helped me, so that I was able to go out in a few weeks, but the trouble came back at times and caused me to suffer severely. About eight months ago I was advised to try Doan's Kidney Pills and I procured a supply from a local drug store. The use of a few boxes benefited me in every way and I can now work with ease, having no symptoms of my old complaint. I am confident that Doan's Kidney Pills will live up to representation in all cases of kidney complaint, if taken according to directions."

MODOCs RETURN LIKE ISRAELITES

Warring Generation Dead and Great White Father Forgives.

BACK TO THEIR NATIVE HILLS

Thirty-five Per Cent of Number Returned to Indian Territory From Their Oregon Mountains Participate in Biblical Parallel, but Not Captain Jack and His Fighters.

Like the children of Israel, who "wandered in the wilderness for forty years until all of that generation which came out of Egypt were dead, and then were they allowed to enter into the Promised Land," is the case of the Modoc Indians. For nearly forty years the Modocs plined and wasted far from their promised land of home and liberty. And now—now that all the generation with which Uncle Sam waged war are dead—the Modocs have crept unhindered to their ancient homes.

Little has been said about the return of the Modocs. The interior department and the Indian bureau have not blazoned their kindness abroad. A few lines in the official archives; a few phrases in the report of the department; a few remarks by the agents of Quappaw, Okla., and Klamath, Ore.; a few changes in the tables of Indian population for the year—and that is all. That is the sum of the attention officially paid to the closing chapter of the west.

Return to Ancestors' Home.

Officially all Americans know is that "inasmuch as the original Modoc prisoners transported from Oregon to Indian territory are now dead, and as there seems to be no objection to their return the band of Modocs now at Quappaw agency will be transported as expeditiously as possible to the Klamath agency in Oregon." That is all the government has to say about it, and that is the way in which the chapter is officially sealed.

Thirty-seven years of exile in a distant land, thirty-seven years away from the mountains and the lakes, the country where the old tribe roved and fought and died as warriors should—thirty-seven years during which the captives taken to the faroff reservation have perished to a man! And now a straggling few, their children go back to the home of their fathers—the country they have never seen.

When the white man first swept into southern Oregon and northern California he found the Modocs, never strong in numbers, but of splendid fighting stock, living in the land of lakes and hills that lies upon the border line. They were an offshoot of the conquering Tinnex race that swung down from the frozen north 1,000 years ago. That onrush of polar hunters carried clear to Mexico, leaving the Apache, Navajo and Lipan as farthest outposts. The Klamath, Hupa and Modoc were left along the road of travel.

After much fighting between the white men and the Modocs a portion of the tribe agreed in 1864 to be herded with the Klamath on the latter tribe's reserve. Klamath reservation is an integral part of the old hunting ground, and with its lakes and peaks is even more delightful than the tract the Modocs held. Nevertheless one faction of the Modocs, headed by Kientpoos—known in western lore as "Captain Jack"—objected strongly to the transfer.

Modocs Open War.

Kientpoos and his band, numbering not over 225 people all told, went to their new location under protest and soon made the protest stronger by declaring that they could not live in harmony with the Klamaths. They begged permission to return home, and the government received their prayer with red tape, and some more red tape for good measure and variety.

Then the Modocs cut the Gordian knot in the Indian way. They jumped back to their former homes and the war was on.

The story of the fight Kientpoos made against a nation has been told 10,000 times. We know how the Modocs whipped everything the government could send against them. At last a peace commission was appointed to treat with the tribe, and here the Indians overplayed their hand. They murdered the commission, headed by General Canby, and their doom was sealed.

New armies came, and the Modocs, retreating to that inferno known as the lava beds, cheerfully killed the soldiers from the shelter of the rocks. More soldiers came, and also Warm Springs Indians, incited by the white man's pay. The Modocs held their ground among the lava, but hunger did its work, and the tribe surrendered. Kientpoos and his counselors were duly hanged at Klamath agency, and the tribe, 140 strong, went to Quappaw, Indian Territory. Here they were assigned land and learned the arts of civilization. They became Christians, farmers, hardworking citizens. They gave no trouble, and they faded away one by one, ten after ten.

Only forty-nine of the tribe remained—just 35 per cent of the number first kidnapped from their faroff home. The forty-nine packed up their slender baggage, and a forgiving government sent them safely on their way.

The Cobweb.

A story was told the other day of a little girl who discovered a cobweb and then, seeing a spider emerge from it, called out: "See the cob run! How fast the cob runs!" As a matter of fact she builded better than she knew, for cob, or cop, is, according to the dictionaries, the name sometimes given to a spider, whence the word cobweb. Cop in this sense is probably an abbreviation of the Anglo-Saxon uter-coppe, a spider.—London Notes and Queries.

CARRIED OFF BY A LION.

Thrilling Experience of a Ranger in the Transvaal.

Two men at least have given accounts of their sensations when they were carried off by lions—the great explorer Livingstone and a man named Wolhuter, a ranger of game preserves in the Transvaal. Wolhuter's adventure is not secondary in interest to Livingstone's experience. His story, which was attested by the certificate of the magistrate of the district, was substantially as follows:

He was riding along a Kafr path about an hour after sunset. It had been a long march, and he had pushed on ahead of his companions. His dog barked at something, and a moment later Wolhuter saw a lion crouching close to him on the right hand side. The ranger turned his horse sharply, a circumstance that no doubt caused the lion to miss the spring.

Wolhuter was unseated. At the same moment he saw another lion coming from the opposite direction. The horse rushed off, with the first lion in pursuit, and the second lion picked Wolhuter up almost before he touched the ground and gripped him by the right shoulder in such a position that he was face up, with his legs and body dragging underneath the beast. The lion trotted down the path, uttering a loud, growling, purring noise.

Wolhuter's sensations were not those of Livingstone, who said he was in a state of apathy, with entire absence of pain during the time the lion had him. The game ranger suffered terribly, both mentally and physically, and saw no possible way of escape. The lion took him nearly 200 yards.

Suddenly Wolhuter bethought him of his sheath knife, which he carried in his belt behind his right hip. On reaching a large tree with overhanging roots the lion stopped, whereupon Wolhuter stabbed him twice in the side with his left hand. It was ascertained afterward that the first stab touched the bottom of the heart and that the second one slit it down for some distance.

The lion immediately dropped Wolhuter, and again the game ranger struck him, this time in the throat, severing an artery.

The lion jumped back and stood facing him, growling. Wolhuter scrambled to his feet, shouting at the top of his lungs. He expected the beast to come at him again, but it did not. Instead, it turned slowly and, still growling, went a few paces. Soon its growling turned to moans. These, in turn, ceased, and the ranger knew that the beast was then dead.

Wolhuter got up the tree as fast as his injured arm would permit, and hardly was he seated when the first lion, which had been after the horse, came back on the trail of blood. By this time the plucky ranger was so faint that he tied himself to the tree to prevent himself from falling out.

He was found by his companions, who took him to a place of safety. The lion he had killed was an old male, and the weapon used was an ordinary sheath knife.—New York Tribune.

Peculiarities of Lichens.

The lichen is remarkable for the great age to which it lives, there being good grounds for believing that the plants endure for 100 years. Their growth is exceedingly slow, almost beyond belief, indicating that only a little nourishment is necessary to keep them alive. In a dry time they have the power to suspend growth altogether, renewing it again at the fall of rain. This peculiarity alone is enough to make the lichen a vegetable wonder, as it is a property possessed by no other species of plant. Another interesting fact about lichens is that they grow only where the air is free from dust and smoke. They may be said to be a sure indication of the purity of the air, as they are never found growing in cities and towns where the atmosphere is impregnated with dust, soot, smoke and other impurities.

JULY 4 DEATHS ARE FEWER.

Only 131 Fatalities, but Number of Injuries Was 2,923.

Although the list of deaths and accidents due to the celebration of the Fourth of July is appalling, the "same" observance of the day in 1910 shows a notable improvement in this respect, according to statistics compiled by the Journal of the American Medical Association. The decrease in accidents is most marked in those sections where restrictive legislation has been put in effect.

"Two thousand, nine hundred and twenty-three persons were injured July 4 this year, of whom 131 died," the Journal says. "Sixty-seven deaths were due to tetanus, nineteen were killed outright by firearms, eleven by explosions of powder, bombs or torpedoes, six by cannon or similar contrivances, while twenty-six, mostly little girls, were burned to death by fire from fireworks.

"Startling as is this showing, it is the best since 1903, when the Journal began keeping its record. In 1903 4,449 persons were injured, of whom 466 lost their lives, 406 of them dying from tetanus. The grand total for eight years shows that 37,526 persons have been injured, of whom 1,662 died."

WOMEN CABBIES ARE HUMANE

Horses Much Better Kept Than Men's, Paris Finds.

The League for the Protection of the Horse, which exists in Paris, slight as may seem the results it obtains, has been making an inquiry into the lot of the Paris cab horse, and its report of the result lays special stress on the superior condition of horses of cabs driven by women as compared with those driven by men.

The women cab drivers were found to be uniformly kind to their horses and scarcely ever to use the whip, and were often seen giving them some little delicacy to eat. At one of the largest stables where cabs are let to drivers the league was told of a mare named Rosette which was so vicious and bad tempered that no driver was willing to take her out. One of the women drivers asked for her and treated her so well that she became a tractable and useful animal.

ENGLISH ARE TO TEACH SERVANTS

Brighton Boarding House Is School of Instruction.

GERMANY'S PLAN IS FOLLOWED

Low Rates Made to Boarders Who Act as Tutors to Girls Who as Pupils Do All Housework—Karlruhe's Experience Shows Good Results and Eventual High Wages.

The servant girl problem is beginning to worry our staid and conservative cousins over in England, and in order to help in its solution the city of Brighton has embarked upon a new venture. With the approval of the town council of Brighton there will shortly be opened in that city a school to train girls for domestic positions.

A house has been secured as a boarding house, the boarders to be teachers. The entire household work will be performed by the students under the supervision of the teachers. Girls will be sent to the house for certain periods to learn every branch of domestic work thoroughly and practically. The institution of this school is the result of the fact that servant girls are so frequently blamed for the way in which they perform their domestic duties, when as a matter of fact the majority of them have never been properly trained.

German Model Taken.

The Brighton school will be modeled on that at Karlsruhe, in Germany, which is an excellent training school established by the Baden Women's union. At this place several women of limited means are provided with an unfurnished room, coal, light and board and attendance for from \$270 a year and up, according to the size of the room. All the work of the house is performed by girls from fifteen to nineteen years of age, who pay about \$30 for the privilege.

The girls must possess the necessary qualifications of a good character, a satisfactory education, etc. In cases where the girls cannot pay the tuition in full they are given some help. The tuition is not the chief end of the school, but instead it is constantly borne in mind that the school was established to train the girls to be more efficient and more valuable.

Boarders Are Mentors.

The principal meals are served in a common dining room, though the boarders may have them served in private by paying something extra. The object of the course is to fit the pupils for all round practical service, and no attempt is made to teach them anything superfluous to the sound workable understanding of the duties to be performed.

The boarders take a great interest in the students and frequently are able to get them work. The head of the house is a thoroughly practical, motherly housewife, and a pleasant home atmosphere pervades the place. A girl who has taken a course in this school is able to command a considerably higher wage than a "green" girl and also has a better chance to secure a position.

"LADY SERVANTS" HAVE CLUB

Gives Congenial Society to Londoners in Reduced Conditions.

A club for "lady servants" is soon to be opened in London. The main object of the club, according to the secretary, is to give such servants an opportunity of enjoying the social life of which their position often deprives them.

People would be astonished, she says, if they knew how many ladies have gone into domestic service in the last few years. Many of them belong to distinguished old families, and others are the daughters of doctors, clergymen and lawyers.

The chief hardship in the career of a lady who becomes a servant, it is pointed out, is the lack of congenial society, but she will be lonely no longer. In future she will spend her evenings out at the club.

The club rules permit members to invite male friends to dine at the club and enjoy a quiet rubber of bridge. Members will not be encouraged to talk shop. Bridge for small stakes may be indulged in, and country members on a visit to town will find in the club all the luxuries of a London hotel.

LAST EDWARD STAMPS RARE.

Death of King Caused Destruction of New Design.

The scarcest of all British postage stamps is the twopenny stamp of a new design which was ready for issue at the time of King Edward's death. It was not placed on sale, and the postmaster general has decided to destroy the entire stock, with the exception of a few specimens for King George's album, the British museum and the Postoffice museum at St. Martin's-le-Grand.

\$10,000,000 TO AMUSE PARIS

Tax Figures Indicate Total Spent During 1909.

Parisians spent more than \$10,000,000 on public amusements in 1909. The figures are official, being known because of the tax for the poor levied on all public entertainments. This tax is now paid by the public, the managers having raised their prices a year ago sufficiently to cover it.
